COMPACT & POWERFUL LINEAR ACTUATOR SYSTEM

Wireless Direct Cut Solution - Make Your Design Out of Limitation

Smooth & Powerful Movement Linear Actuator - TA38M & TA43

- Palm sized design (TA38M)
- Max load: 4,000N (TA43)

Mobile Battery Solution Backup Battery - TBB8

- · Detachable battery
- · Low standby power consumption

Universal Charging Design Power Supply - TP11

- · SMPS transformer
- · Removable plug support

Flexible Operation Control - TFH25

- · Max Buttons: 8
- · Wireless hand control

TA38M

Voltage Max. load Max. speed at max. load Stroke Retracted length

Operational temperature range Output signal 2,000N (push); 1,500N (pull) 6.2mm/s 20~300mm ≥ 160mm (depending on chosen options) +5°C~+45°C Hall sensors

12/24V DC; 12/24V DC (PTC)

TA43

Voltage Max. load Max. speed at max. load Stroke Retracted length Operational temperature range Output signal 24V DC; 24V DC (PTC) 4,000N (push/pull) 2.5mm/s 20~300mm \geq Stroke + 100mm +5°C~+45°C Hall sensors

TBB8

Battery typeLithiumCapacity1.5AhCharging voltage24~35V DCDischarging voltage24V DC, 1.5ALED indication (for charge / discharge status)With built-in buzzerLow standby power consumptionDetachable bracket

TP11

Transformer type Input voltage Max. output Plug support Options SMPS 100~240V AC 29V DC, 1.8A EU, USA, AUS, UK Multiple wall mount plugs, backup battery

TFH25

Max. available buttons 8 Wireless hand control, compatible with TRF (RF receiver)
